## Creación de un índice

Se accedió al a plataforma Dev Tools (consola) y se agregó un índice con el nombre practica1, el código utilizado fue `PUT /practica1`.

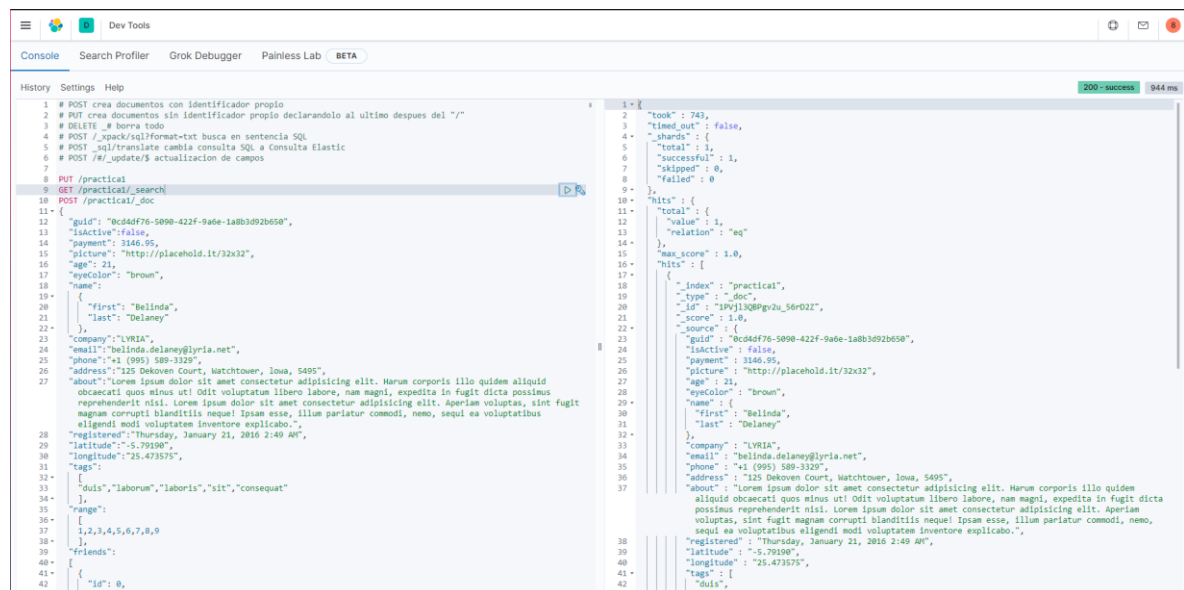

*Ilustración 1 Índice Practica1*

Se inserto el código proporcionado en el PFD *Práctica de Elastic 2020* y compilado con *POST /practica1/ doc*.

*Ilustración 2 POST de Practica1*

Aplicación del método de búsqueda sin parámetros *GET/practica1/\_search*.

### Ilustración 3 Búsqueda en Prática1

Se realizo el mapeo de la estructura con el código *GET /practica1/\_mapping/*.

The screenshot shows the DevTools Console with a GET request to `/practica1/_mapping/` and its response. The request is successful (200 OK) and the response is a JSON object representing the Elasticsearch index mapping.
